TAXUS

Jan. 1, 1963

Our trimmed, compact, bushy sales-yard size yews have been the hottest selling evergreen we have ever offered. Some customers last fall ordered 3 and 4 times. They are also ideal for modest-priced yew hedging or budget landscape jobs.

Available in-

Taxus cuspidata nana
(Dwf. Spreading Yew)

Taxus media densiformis
(Dense-formed Yew)

Taxus media browni
(Browni Yew)

Taxus media cliftoni
(Clifton Spreading Yew)

9-12" B&B

12-15" B&B

Taxus media hatfieldi
(Hatfield Upright Yew)

Taxus media hicksi
(Hicks columnar Yew)

Taxus media Kelseyi
(Berry-bush Yew)

Taxus media wardi
(Ward's Dwf. Spreading Yew)

10 rate	100 rate
1.50	1.35
2.50	2.00

-Specimen Taxus-

We have some large, very heavy specimen *Taxus* from 30-36" to 4-5 ft. in several varieties. These have been used for stock plants and are consequently unusually dense and full-- ideal for landscape specimens. Ask for quotations.

FORREST KEELING NURSERY Elsberry, Mo. Phone Area 314, TWinoaks 8-5571

SPECIMEN TREES

Trees grown in 12 ft. rows for full head development, properly fertilized, trimmed and transplanted for discriminating landscape work. Real specimen material. Sizes from 2½" to 7" caliper. Dug B&B to A.A.N. specifications.

Acer platanoides
(Norway Maple)

Phellodendron amurense
(Amur Cork Tree)

Acer platanoides columnar
(Columnar Norway Maple)

Platanus acerifolia
(London Plane Tree-true Fl form)

Acer saccharinum
(Silver Maple)
(Select budded form)

Prunus serrulata "Kwanzan"
(Kwanzan Fl. Cherry)

Acer saccharum
(Sugar Maple)

Quercus coccinea
(Scarlet Oak)

Carpinus betulus
(European Hornbeam)

Quercus palustris
(Pin Oak-Northern)

Celtis occidentalis
(Hackberry)

Salix niobe
(Niobe Weeping Willow)

Crataegus crus galli
(Cockspur Thorn)

Sorbus aucuparia
(European Mt. Ash)

Crataegus phaenopyrum
(Washington Hawthorn)

Syringa amurensis japonica
(Japanese Tree Lilac)

Elaeagnus angustifolia
(Russian Olive)

Taxodium distichum
(Bald Cypress)

Fraxinus penn. lanceolata
(Green Ash)

Ulmus carpinifolium
"Christine Buisman"
(Christine Buisman Elm)

Gleditsia triacanthus inermis
(Thornless Honey Locust)

Ulmus procera
(U. *Campestris*)
(English Elm)

Gleditsia tria. "Shademaster"
and "Moraine"
(Moraine and Shademaster Locusts)

Ulmus pumila
(Siberian Elm)

Liquidambar styraciflua
(Sweet Gum-Ill. Seed Origin)

We can arrange economical transportation to any location. Call or write for quotations.

FORREST KEELING NURSERY

Hugh Steavenson, Prop. Elsberry, Mo. 314 TW8-5571

Amur Honeysuckle (*Lonicera maackii podocarpa*) grows to 12 ft. or more and makes a superb tall-growing screen. Customers are delighted with the privacy it affords. See below.

Lonicera maackii podocarpa
(Amur Honeysuckle) Variety *podocarpa* is much superior to the species—retains leaves much longer, often till Christmas. Latest fruiting of all honeysuckles—masses of red berries persist until winter. Yellowish, fragrant flowers. A very vigorous grower, superb as a tall screen.

6 to 12 ins.	4c	3c
12 to 18 ins.	7c	5c
18 to 24 ins.	9c	7c

Pinus sylvestris
(Austrian Hills Scotch Pine) Fastest growing form we have ever tested. Described as having "blue-green till" but shows typical Scotch Pine winter color under our conditions. 2-yr.

4 to 6 ins.	6c	5c
6 to 12 ins.	8c	6c

Pinus sylvestris Race Noble
(Scotch Pine French Blue) This is the heralded Auvergne strain. Best color we have seen. Moderate growth rate but develops good bushy form. 2-yr.

6 to 9 ins.	8c	6c
------------------	----	----

Pinus thunbergii
(Japanese Black Pine), 2-yr.

4 to 6 ins.	6c	5c

Prunus tomentosa
(Manchu Cherry)

6 to 12 ins.	5c	4c
12 to 18 ins.	7c	6c

Pseudotsuga taxifolia
(Douglas Fir) Glauca type from Colorado Rockies. Much superior to *viridis* or *caesia* forms for east or midwest plantings. Rapid growing, bluish-green color. Have gone through one year in open beds without shade, 2-yr.

4 to 6 ins.	5c	4c
------------------	----	----

Quercus borealis maxima
(Northern Red Oak)

4 to 6 ins.	6c	4c
6 to 12 ins.	8c	6c
12 to 18 ins.	12c	10c
18 to 24 ins.	15c	13c

Rosa multiflora
(Multiflora Rose) Still the best living fence plant. Our plants are produced from seed gathered from proven midwest fences 20 and 25 years old. A splendid upright, thorny type. Conservation grade, app. 2/16-in. cal.

12 ins. height	\$14.75 per 1000
---------------------	------------------

No. 2, 2/16 to 3/16-in. cal.
12 to 15 ins. height \$19.75 per 1000

No. 1, 3/16 to 1/4-in. cal.
15 to 18 ins. height \$26.50 per 1000

Ask for prices in quantities of 10,000 to 500,000.

Rosa rugosa
(Rugosa Rose) One of the best rose species going and hardy anywhere in U.S. Not so tall growing as *Multiflora* but with a much larger crimson-rose bloom and huge brick-red hips that are 50 times as potent in vitamin C as oranges! Withstands salt spray and other abuse. Retains clean, dark green foliage without spraying.

6 to 9 ins.	10c	7c
9 to 15 ins.	15c	12c
15 to 18 ins., heavy	20c	15c

Sophora japonica
(Japanese Pagoda Tree)

1/4 to 3/8-in. cal.	12c	10c

18 to 24 ins.	13c	11c

Tilia cordata
(Little-leaved Linden)

6 to 12 ins.	8c	7c
-------------------	----	----

Ulmus parvifolia
(True Chinese Elm) An excellent tree. Do not confuse with the Siberian Elm, *U. pumila*, which is often called "Chinese Elm".

6 to 12 ins.	5c	4c
12 to 18 ins.	9c	7c
18 to 24 ins.	15c	12c
2 to 3 ft.	20c	16c

Viburnum lantana
(Wayfaring Tree Viburnum)

4 to 6 ins.	7c	5c
6 to 12 ins.	9c	8c

Zelkova serrata
(Japanese Zelkova) One of the best replacements for American Elm. Foliage finer in texture but tree shape is closer to elm than any other tree. Fast growing but staking is necessary to develop a straight trunk in the nursery.

6 to 12 ins.	5c	4c
2 to 3 ft.	20c	15c

Prices F.O.B. Elsberry. Boxing and packing at Cost. Terms: To those with an established record for prompt payment or with satisfactory references, we are glad to extend our regular terms of 30 days net from date of invoice. Past due accounts are subject to 6% service charge.

Quantities to 300 take 100 rate; 300 or more, the 1,000 rate. All plants offered are grown in our own nursery. None are collected and we broker no plants. Many items will be quickly sold. Please book without delay to avoid disappointment.

12 to 18 ins.	6c	4c
18 to 24 ins.	7c	5c
2 to 3 ft.	10c	8c

Elaeagnus umbellata
(Autumn Elaeagnus). "The songbird
shrub." A hardy strain selected by
the U. S. D. A. for heavy fruiting of
red berries. In demand by conserva-
tion agencies for wildlife plantings.
Equally desirable for attracting song-
birds. Splendid silvery foliage; fra-
grant, yellow flowers.
6 to 12 ins. 6c 4c
12 to 18 ins. 8c 7c
18 to 24 ins. 10c 9c

This 30-year-old, 35 foot *Koelreuteria paniculata*, (Golden-rain Tree), was moved from Elsberry to Washington University this summer. Budget for this single tree installation ran into 5 figures! This and *Laburnum* only northern trees with yellow blossoms. Golden-rain is an exceptionally fine medium-growing tree and one seen more frequently in better landscape plantings. Our seedlings are of exceptional quality this year. See below.
